Cloud and API deployment

Name: Osman Balli
Report date: 14.04.2021
Internship Batch: LISP01 - 13
Version:<1.0>
Proje located: https://github.com/osmanballi/car_predict_heroku

Proposed Approach:

I also used the data and web page I used in the previous study in this application. I edited and installed it Api-based. It took me a while to fix the mistakes I got, so now I was able to upload them to Heroku.
